Wow! first time ive been early reviewing a game. Anyway, this game is awesome. the adrenaline inducing music along with the reckless playstyle it encourages makes this game very thrilling. This game is much better than just a TouHou ripoff and that is a very difficult thing to achieve while keeping the bullet-hell AND scrolling shoot-em-up theme AND great music. definetly recomend this game, unless you cant handle being dangerously close to lighning fast bullets almost all the time. i only played it for a few minutes because thats all my heart could take and i wanted the honor of writing the first real review (real meaning not just saying "first")..
